Kilos? The higher the stakes the more likely the second chemist. We can give the ADA the rationale for keeping it down to the custodial chemist but I imagine we'll both end up going. We can press the issue when we get a court date. I'm expecting to be out of Massachusetts on two occasions this August. I'll send her another note that we need a possible court date ASAP if she wants us before we go out on our vacation times.

Hey Mike,

I will get the Mass Spec data for you tomorrow. Will they need the 2<sup>nd</sup> chemist for this case, since these were Kilos? Thanks

-Annie

ADA Flynn,

Please note that I am the Mike Lawler at DPH. Your note was forwarded to me from Mike Lawler at DMH.

Annie Khan is at the Lab and is cc'd on this memo.

As ever, we are eager to accommodate all legitimate requests for records. We are currently processing requests upon receipt of a subpoena. Two objectives are met with the subpoena. First, a layer of security is established for the defendant's file. Second, we will use the date of the subpoena to triage multiple requests for court appearances on any particular day.

With the State Lab numbers in hand, we can begin the paper chase and collate the materials you have requested. But we will need the subpoena to justify the records release and establish a timeline for scheduling any court appearance. Please forward a *postal address*, as this material will be sent by mail.

Best wishes, Michael Lawler

Hi Michael,

Can you email me a copy of your CV? I have you as my chemist in an upcoming New Bedford trial. I don't have a fixed trial date as of yet and I am sure you are getting overwhelmed by requests to testify!!

Also, do you happen to know if Annie Dookhan is still working at the lab? I don't see her on the email listing and I need to get her CV as well.

I will be in touch as soon as I get a trial date. The lab numbers on the case are No. [REDACTED] Can you send me any notes you have on the testing procedure...and the graphs etc.

Thank you!

Maryclare Flynn
